### Stargazing Cuvée by Iron Horse

You will not want to hide this magnum's stunning label under wrapping paper. Inspired by the gorgeous imagery captured by the James Webb Space Telescope, Sonoma sparkling wine house Ironhorse created Stargazing Cuvée to celebrate extraordinary scientific achievement and the beauty of our universe. NASA released the photo of the "Cosmic Cliffs" of the Carina Nebula this past July, and the team at Iron Horse was so impressed by the image that they disgorged and bottled 3000 magnums of 2014 brut. Enjoying sparkling wine has been likened to "drinking the stars," and this cuvée's lively, tiny bubbles are a perfect example of this phenomenon. Flavors of pineapple, lemon curd, slivered almonds and rising bread wind down to a luxurious finish.
